## PROFILE

Software developer with over a decade of experience in a corporate environment looking for my next challenge. I thrive in a dynamic environment where my programming skills, process improvement expertise and history of patient-centric research support a company's objectives.

## PROJECTS

GRACE SHOPPER/July 2020

[DEPLOY](#) | [REPO](#)

Fully-functional eCommerce platform selling camping equipment

- Individual contributions include design of UX, GUI, database architecture, merchandise API routes, code tests (JEST)
- Organized a project management workflow to include objective-driven meetings, resource allocation and task assignments for a remote team of 3 other developers.

THENEWSAPP/June 2020

[DEPLOY](#) | [REPO](#)

News aggregator utilizing 3<sup>rd</sup> party API and advanced search functionality

- Designed user interface employing Bootstrap CSS and custom CSS libraries, jQuery, and custom animations.
- Utilized Stateful design principals to minimize API calls and allow pagination functionality.

ROULETTE/March 2020

[DEPLOY](#)

State-driven JavaScript game featuring custom animations for a rich user experience

- Custom CSS library feature spinning wheel, bouncing ball, leader board
- Stateful design for tracking complex betting positions, user bank, and turn history.

## EXPERIENCE

ASSOCIATE DIRECTOR

Corbus Pharma/2020-Present

- Lead cross-functional teams focused on the transitioning of a clinical-phase biopharma to marketing their first commercial product
- Served as project manager on high-visibility initiative to establish a commercial supply chain by integrating external logics, service-to cash services, and commercial production of finished product to seamless integration with internal processes.

ASSOCIATE DIRECTOR

Sanofi US Pharma/2014-2020

- Collaborated with IT to integrate hosted catalogs in global spend management software
- Project Manager on selection and implementation of a clinical trial management platform with negotiations and efficiency gains resulting in (est.) 35% annual cost reductions.
- Collaborated with management to reduce global warehouse network from 50 external vendors to 2 while harmonizing to one global process.

CATEGORY MANAGER

Merck-Millipore/2012-2014

- Implemented and administered company corporate credit card platform for management of travel and purchase card program.
